

Front-End Developer - React

Apply here: [IVO Systems Careers Page](#)

Company Overview: Join our dynamic team at IVO Systems, a cutting-edge construction operations platform, dedicated to bridging the information gap between field operations and office management in the construction industry. Founded in 2019, IVO Systems has received \$1.5M in seed funding from TitletownTech and is revolutionizing software solutions for construction companies.

Job Description: As a Front-End Developer - React at IVO Systems, you will play a pivotal role in designing, implementing, and maintaining high-quality software solutions for our clients. We welcome React Developers ranging from junior to senior levels. Planning to make immediate hire.

Responsibilities:

- Building user interfaces and components using React.js, adhering to best practices and coding standards.
- Collaborating to implement responsive and visually appealing user interfaces in line with UI/UX designs.
- Writing HTML and CSS code for proper layout and styling of web applications.
- Using Git for version control and collaborating via platforms like GitHub or GitLab.
- Writing and executing unit tests, ensuring code quality, and participating in code reviews.
- Documenting code, processes, and project-related information for future reference.
- Developing complex React applications, managing state with Redux or similar libraries, and optimizing performance.
- Configuring and optimizing build tools like Webpack, Babel, and ESLint to enhance development workflows.
- Ensuring seamless user experiences on various devices through responsive design techniques.
- Developing design layouts in Figma and managing the design process.
- Collaborating with back-end developers to integrate front-end code with RESTful APIs.
- Identifying and addressing performance bottlenecks, optimizing code for speed, and improving SEO.
- Ensuring web applications adhere to accessibility guidelines.

Qualifications:

- Bachelor's degree in Computer Science, Engineering, or related field, or equivalent experience.
- 2+ years of experience
- Proficiency in React.js, JavaScript, HTML, and CSS.
- Experience with front-end build tools, version control systems, and RESTful APIs.
- Strong problem-solving skills and the ability to work effectively in a team.
- Knowledge of PHP preferred but not required.

Perks and Benefits:

- Competitive salary and benefits package.
- Collaborative and growth-focused work environment.
- Opportunities for diverse, exciting projects.
- Office located in downtown Madison, WI, with a blend of in-office and remote work options for local and exceptional remote candidates.
- Join a fast-growing, venture-backed startup shaping the future of construction software.

Join the IVO Systems team and be a part of revolutionizing the construction industry!
